Don Bosco University Global

Don Bosco University Global (DBU-G) is a state of the art online e-education platform by the Assam Don Bosco University. Envisioned to provide quality university degree programs on an online platform to students and working professionals across the world, DBUG uses the latest in Information and Communication Technology (ICT) and the power of the Internet to reach out to students around the world.

The Don Bosco ethos of ensuring that every student gets equal access to quality education, regardless of his or her background, also holds true at DBU Global.

Working in close collaboration with University18, India's first and largest e-education platform, DBU Global delivers programs to an audience across the nation and abroad. Using a state-of-the-art virtual Classroom platform, DBU Global students attend classes over the internet, interacting with professors teaching at some of the finest institutions of the nation, and fellow students placed across the globe.

The teaching-learning methodology is comprehensively supported by the DBU Learning Management System (LMS) which emphasizes peer-to-peer collaboration on projects and case discussions amongst students and faculty. Individual assignments and presentations are part of the teaching methodology.

The LMS also includes the main course content in e-learning format, program-specific notices, online submission of assignments, reminder services, online assessments and student records.

Every program has formal examinations associated with it, whose scores are a part of the student's transcript. While internal evaluations are conducted online through the LMS, the End Term Exams are conducted online at examination centers throughout the country. Performance in assignments, case-studies, projects, presentations, tests and participation are other instruments of evaluation.

Its services are offered through 31 colleges, which include 2 engineering colleges, over 100 technical schools and a large network of high schools and score of non-formal technical and agricultural training centres, spread across the country, covering the entire spectrum of Social development. The Society also runs literacy centres, shelter for street children and rehabilitation and relief operations.

The government of India has recognized the Salesians of Don Bosco as the largest non-governmental provider of technical education in the country.

Assam Don Bosco University

The Don Bosco Educational Society, leveraging its century-old expertise in education in India and abroad, decided to enter the field of higher education in an emphatic manner, particularly in the University system, by setting up the Assam Don Bosco University at Guwahati - the first such project of the Society in India.

Established on 29th March 2008, Assam Don Bosco University aims to mould intellectually competent, morally upright socially committed and spiritually inspired persons at the service of India and the world of today and tomorrow, by imparting holistic and personalized education.
